● National Health Insurance Premiums

National Health Insurance premiums comprise a medical portion, support portion, and Long-Term Care Insurance portion (only for those between 40 and 64 years of age). Each portion is determined by adding together an income-based amount from the previous year and per-capita amount. The latter is calculated based on the number of all enrollees of the National Health Insurance (NHI). To ensure that NHI premiums are calculated correctly, an income tax report for the entire household is necessary. Your cooperation in this matter would be appreciated.

Also, please note that insurance premiums are calculated for the household as a unit, and the head of a household of insured members is responsible for paying insurance premiums. Therefore, please be careful and do not forget to pay your insurance premiums.

● How to Pay the National Health Insurance Premium

You pay the annual insurance premium (from April through March of the following year) using the invoices enclosed with the insurance premium notification the Shinjuku City Office sends out (around mid-June) to the home of the person responsible. The total amount for the year is broken down into ten installments from June through March of the following year. The payment deadlines are at the end of each month. (If the financial institution is closed on the last day of the month, the deadline is the following business day.) You can pay your insurance premiums at the City Office or Branch Offices, at financial institutions such as banks and post offices, or any designated convenience store. You can also pay by direct debit (automatic payment) or mobile-regi, pay-easy or electronic money code.

Note: For more information, please check the Shinjuku City website or ask the National Health Insurance Eligibility Section.

 https://www.city.shinjuku.lg.jp/hoken/hoken01_002031_00002.html

● Health Insurance Premium Payment Consultation

However, if you submit an application form for a change in payment method and a request form for the direct debit (automatic payment) service,

then premiums are paid by direct debit from your financial account.

2. Other than pension deduction: If the requirements for pension deduction do not apply to you, please pay your premiums by the designated deadline at the service counters of financial institutions or convenience stores. Premiums can also be paid at the City Office or your local Branch Office. Paying by bank account debit (direct debit method) is convenient and recommended.
